CONGRESSMAN
ROBERT PITTENGER

The Affordable Care Act has been reviewed by the Supreme Court and has been debated throughout 2012. While the courts have been challenged to review additional provisions of the Affordable Care Act, which will be discussed at the forum, the large majority of the legislation will likely remain intact. Recognizing that this legislation will overhaul the health care delivery system, it is important for Americans to understand how it will impact their lives. The purpose of this forum is to fully inform small business owners, individuals, and healthcare providers regarding what they should do to prepare for deployment beginning January 1, 2013.

Mr. Mike Tanner with the Cato Institute has prepared a very thorough presentation regarding implementation of the Affordable Care Act. Mr. Tanner will answer these pressing questions: What does the Affordable Care Act mean to you and your business? Will your premiums go up? What about new taxes? Who will be impacted by the individual and employer mandates? Should North Carolina establish an insurance exchange or expand its Medicaid program?

Following the presentation, there will be ample time for questions and answers. The presentation will begin promptly at 8am. Should there be other individuals whom you would like to attend this briefing, kindly forward their names to chris.sullivan@mail.house.gov.

A handwritten signature in blue ink, appearing to read "Robert", is positioned at the bottom of the letter.
